WIN ZAW HEIN

SENIOR FLUTTER DEVELOPER

Yangon, Myanmar | +95 9 883 374 313
winzawhein214199667@gmail.com | github.com/winzawhein
Portfolio: winzawhein.github.io

PROFESSIONAL SUMMARY

Flutter developer experienced in delivering cross-platform mobile, tablet, desktop, and macOS applications for e-commerce, ERP, HR, health, appointment booking, streaming, and social products. Strong foundation in Dart, object-oriented programming (OOP), REST API integration, and business-focused feature delivery, with additional backend experience in Laravel/PHP. Hands-on experience with Odoo workflows, KPay subscriptions, in-app purchases, and production applications used by Sweety Home and Toyota in Myanmar. Known for practical problem solving, dependable execution, and collaborative delivery.

TECHNICAL SKILLS

Application development: Flutter, Dart, responsive UI, Android, iOS, tablet, desktop, macOS

Business systems: Odoo integration, ERP workflows, HR applications, sales applications

Integrations: REST APIs, KPay, subscriptions, in-app purchases (IAP), maps, chat, video calls, charts, printing

Foundations: Object-oriented programming, debugging, Git/GitHub; Laravel, PHP, HTML, CSS, JavaScript; Kotlin familiarity

PROFESSIONAL EXPERIENCE

Flutter Developer

Mascot Myanmar | Mar 2026 - Present

- Develop and maintain Flutter applications for movie streaming and social networking products.
- Implement product-specific features and user flows across streaming and social app experiences.
- Integrate in-app purchases (IAP) to support paid digital offerings within the applications.

Flutter Developer

ZA Information Co., Ltd | May 2025 - Mar 2026

- Developed Flutter applications for mobile, tablet, iOS, desktop, and macOS, adapting interfaces and interactions to different screen sizes.
- Worked on production applications used by Sweety Home and Toyota in Myanmar.
- Implemented booking workflows for Pioneer Plus, including seat selection and temporary seat-hold behavior during the reservation process.
- Integrated REST APIs for commerce and business applications, translating operational requirements into application features.

Flutter Developer

Seventh Computing Co., Ltd | Feb 2024 - Jul 2024

- Developed Odoo-connected ERP applications for mobile and tablet, implementing workflows aligned with the backend business processes.
- Built HR and e-commerce application features with REST API integrations and interfaces adapted for mobile and tablet users.

PROFESSIONAL EXPERIENCE / CONTINUED

Mid-Level Flutter Developer

Infinite Business Solution Co., Ltd | Jun 2023 - Jan 2024

- Developed mobile and tablet sales applications integrated with Odoo ERP, following Odoo-defined sales and business workflows.
- Built Binfo, a fitness and weight-management application supporting weight-gain and weight-loss goals.
- Implemented map-based discovery to help users find nearby gyms and integrated KPay payments for subscriptions.
- Added food and calorie information, together with chart-based progress views, to support nutrition awareness and weight-management tracking.

Junior Flutter Developer

YEC Co., Ltd | Mar 2022 - Jun 2022

- Developed Flutter e-commerce applications and implemented mobile application features.

Web Developer

Tuk Tuk Ride Co., Ltd | 2019 - 2020

- Maintained the Tuk Tuk Ride website using Laravel and PHP, supporting ongoing website updates and functionality.

ADDITIONAL PROJECT EXPERIENCE

Doctor Appointment: Developed an appointment application with chat and video-call functionality.

ERP applications - Icicle, KMT, PMG: Delivered business application features, including printing workflows.

E-commerce applications - Coda Shop, Myansan, KTK: Developed application features for multiple commerce products.
